(251) 408 - 1938

225 Franklin Rd NE, Apt.1032
Atlanta, GA 30342

Education

2008 - 2012
Bachelor of Science in Computational Media
Georgia Institute of Technology
College of Computing & Ivan Allen College
Graduated with Honors

2005-2008
Alabama School of Math and Science
Graduated with Concentration in Computer Science

Work Experience

2012 - Present
Software Engineer - *Noble Systems Corporation*
Primarily a frontend developer with extensive
experience of HTML, CSS, and Javascript.
Created a Javascript-based page-builder template
engine for our web apps.
Created many specialized Javascript plugins and
solutions.
Experienced with backend C# and Node.js server code.
Active voice in team meetings and brainstorm sessions
for application wireframing, design, and prototype.

2012 - Present
Director of Internal Media - *MomoCon Convention*
Responsible for the design and production of the
MomoCon convention's program book.
Created and designed various media and promotional
materials including posters, flyers, ads, and signs.

2011 - 2012
Web and Graphic Design Intern - *Georgia Tech*
Designed and coded webpages for various study
abroad programs under the school of Literature, Media,
and Communication (LMC) such as the "Italian Film
Study" and "ITU Copenhagen" websites.
Also created various ads, posters, flyers, and banners
for the study abroad programs.

About Me

I'm an Atlanta-based web developer and designer who
likes to find ways to integrate aesthetic designs and
streamlined code into innovative solutions. I'm often
glued to screen sipping coffee and discerning through
lines of code in the browser console, clacking away in
Sublime Text, or fine-tuning a design in Photoshop.

I'm by nature an easy-going individual with a passion
for innovative applications. I like to keep up with the
"State of the Web", and frequent web development
blogs and resources. In my free time, I like to work
on personal side projects or open source projects on
GitHub.

Skills

Development
- HTML
- CSS, LESS, Stylus
- Javascript
- C#
- Node.js / Express
- Understanding of
  HTTP, Web API,
  Async, Promises

Design
- Photoshop / Illustrator
- Graphic & UI Design
- Color Theory
- Layout & Composition
- Logo Design & Brand
  Identity

Technical
- Basic Linux/Unix
  Terminal commands
- Github
- Apache & IIS

Activities & Hobbies

- Actively keeps up with "State of the Web", the
  latest trends in web development frameworks and
  technologies.
- Active member of open source projects.
- Works on personal projects and plugins in free time.
- Frequents web development and design blogs and
  resources.
